

HOME I'M GOING HOME

Origin: The official title is "Motherland", written by Helen Yeomans, a prolific Choir Leader and song writer/arranger who lives in Great Britain. I recommend going to the "MP3 Downloads" section of Helen's website (helenyeomans.co.uk/mp3-downloads/) and scrolling down to give "Motherland" a listen. There are quite a few more layers to this song than most of us know about.

Part 1

*Home I'm going home
I need a land to heal my soul
Take me home, take me home
Over the green green hills and far away*

Part 2, sung simultaneous with Part 1 Home to the Motherland

*Home to the Motherland
Home to the Motherland
Over the green green hills and far away
Recording - Song Forest*
